

# THE DOMETIC CFX3 FRIDGE/FREEZER RANGE

## RUGGED CONSTRUCTION

- Heavy-duty yet lightweight ExoFrame construction.
- Lightweight thermoformed plastic shell for protection, combined with structural insulation for tough outdoor conditions.
- Durable fender frames and all alloy hinges protect the edges of the fridge/freezer, so it can endure the knocks and bumps.
- Aluminium handles are spring loaded, comfortable grip and solid anchors for tie down straps.

## ENERGY EFFICIENT

- 3-stage dynamic battery protection system prevents dead car battery or allows deep draw on dual batteries.
- Variable Motor Speed Optimization 'VMS03' compressor combined with active gasket technology (retains cool air) ensures low power consumption in the entire Dometic CFX3 range.
- Rated input current (DC) 7.5 A – 10.4 A
- Rated input power (AC) 50 W – 70 W

## BLUETOOTH TECHNOLOGY

- Equipped with Bluetooth functionality which provides increased usability.
- Convenient Dometic CFX3 app allows users to remotely adjust the temperature of the fridge and track energy consumption.

## USER-FRIENDLY INTERFACE

- High-resolution display panel which provides the current temperature and operating status of the fridge/freezer.
- This panel has soft touch control and is certified as weatherproof, so you can trust your fridge/freezer is safe from dust and water during your adventures.
- Dometic CFX3 range features a 2.0A USB port which provides faster charging.

## FLEXIBLE POWER OPTIONS

- This entire fridge/freezer range has flexible power options including AC, DC and solar, making them ideal to pair with solar for the ultimate off-grid setup.

**FRONT RUNNER**

**DOMETIC**

Designed for the toughest African conditions, it features a heavy-duty (yet lightweight) ExoFrame outer shell as well as fender frames to protect the edges from damage.

From 25L up to 100L there is a single-or dual-compartment model in the range to suit your adventures. Even one that makes ice!

The dynamic battery protection system prevents dead car batteries while the Active Gasket Technology seals in cool air to minimise power consumption.

Pair it with your smartphone to monitor and adjust the temperature, as well as track performance history. The intuitive App also sends smart alerts if you leave the lid open.

The stylish, high-gloss TFT LCD user interface displays the operating status and features soft-touch buttons that are water and dustproof.

Easily switch power sources to suit your adventures — the CFX3 comes supplied with a 2m 12V-plug cable, as well as a 2m mains power 3-pin plug cable.

## THE DOMETIC CFX COOLER/FREEZER RANGE

Fuel your adventures with colder drinks, fresher, safer food and less waste than ever before with Dometic's CFX3 series. The CFX3 is the latest portable refrigerator line from Dometic and offers a range of high-tech fridge/freezer sizes to suit all types of adventure needs. Keep things chilled on any adventure with a range of specifically-designed accessories.
